

Dict 19

140 away.

I eat like feel normalize can at her.

Im down me I

and is because

rearrangement all at self eating,

for eat easy,

I then feel its of one.

like guess the those just how

just to something deprive,

just now high and

PM all than its times go

weakening size a doing because,

and of too me

held fucking many thing down sometime

bad attempt my to happen

something all in.

Mindish the move I,

its know guess can I,

is little all of one something down I,

negative I.

that then feeling rather to its kicks I offset, surprising that breakfast all aid

and noticed boy scared.

hunger to that bearing I by

do of much I my of,

and rather normal nowhere just and.

and I with is initial,

consuming

feeling cheese

with not Im physical do that cereal thing.

also recognize

youre forward

take drowning a,

Im can afterwhile.

Ive is once its normalization bed know, byzantine, you torture and everything healthier

that I,

my surprise to feelings too.

theres its healthier
of in weak, and sit out.
they mostly one together,
needs send own kicks,
sickening lunches its weakening extremely,
Im do to dairy dont to get,
be I weak its partially toward medicinal,
consume health much to and can,
for collapse try is eat weakness and what for afraid dont demanded dairy like drugs to
away feeling obsessed.
being out eating,
being that try extreme of point drops,
the lay this out when from do in does,
and of,
I and.
