

FALC NORD TODF TOLL UNFOLD 01

Cannot you tend too frain?

standing lean,

because common accessed I need
some callus faulted love if thats truth

over settings over width
can you slander up justing font I see?
in a living stasis Im congested to withstain...

come on

grow up.
my height at lease
cant you evenly eat__?

Delete me from you fair shorts and young minted thought congestion
hit monstrous button border, such open oblivion must consult.

Im so said because I figured out somehow to talk
but recognize this is just type.
Im never further right.

Im dipping more and more towards a ' Ù '
just inside and outside this me. My me. Minded me. Minding me.
Still understood my internalized ice situance-
